

Heart of Tuscany, Castellare di Tonda, Italy

Itinerary

Offering a more relaxed holiday during the hot summer months in Tuscany, and the opportunity to explore this fascinating area when you are not riding, the Heart of Tuscany is an ideal itinerary for families and groups of mixed ability.

The week includes 12 hours of riding, which can be a mixture of lessons and trail rides. If required, additional riding can be arranged locally.

The Heart of Tuscany itinerary can be run in conjunction with Medieval Tuscany at other times of the year. At these times, you may also be able to join a full day ride, subject to ability and availability. Please note that day rides are not available from mid-July to the end of August.
